

The Family Advisory Council is Growing!

We are looking for dedicated family members or consumers across the state to tell us what it is like to live in their community and access services.

Join us for a Virtual Chat to learn more!

What is the Family Advisory Council? A group of family members and consumers sharing opinions, experiences, ideas, and stories to drive positive changes to maternal and child health services and inform programs for women, children, and families.

Who is on the Family Advisory Council? Up until now, this group has been focused on the children with special health care needs population. The input from these families has been so valuable, we have to expand to hear from a broader group of families and consumers. Throughout 2021, we will be expanding to five targeted work groups:

- Woman/Maternal
- Early Childhood (birth to 5)
- Child (ages 6-11)**
- Adolescents (12+)
- Children with Special Health Care Needs (all ages)

****We are currently recruiting for the Child Work group.****

**The next FAC meeting is January 16, 2021
9:30 a.m. - 2 p.m.**

This meeting will be held virtually.
