

Medicaid & Maternal & Child Health (MCH) Alignment: Priorities & Measures

Medicaid Pay for Performance Measures

The State implemented a pay-for-performance (P4P) program to incentivize high performance. The State will withhold a portion of the payments due to KanCare health plans each month. At the end of the year, the State will assess whether or not each health plan has met the required performance target. If they have, the health plan will receive the payments back. If they do not, the State will retain the withheld payments. After the first year of the contract, five (5) percent will be withheld. The percentage withheld is tied to fifteen (15) performance measures, so each measure is worth 1/3rd of a percent. KanCare health plans who meet the State target on some, but not all, of the required measures can receive a portion of the withhold back.

KanCare ¹		Title V ^{2,3,4}	
<i>Measure</i>	<i>Performance Target</i>	<i>Priority</i>	<i>Measures</i>
			SPM 1: Percent of preterm births (less than 37 weeks gestation)
			NOM 5.1: Percent of preterm births (<37 weeks gestation)
			NOM 5.2: Percent of early preterm births (<34 weeks gestation)
			NOM 5.3: Percent of late preterm births (34-36 weeks gestation)
			Initiation of progesterone in women with prior preterm birth
Behavioral Health: The number and percent of Severe Emotional Disturbance (SED) youth who had increased access to services	5% over previous year if less than or equal to 95%; if >95%, maintain; if 91-94%, then achieve >=95%.	Priority 5 Communities and providers support physical, social and emotional health	NOM 18: Percent of children with a mental/behavioral condition who receive treatment or counseling
			NPM 14: Smoking during Pregnancy and Household Smoking (A. Percent of women who smoke during pregnancy; B. Percent of children who live in households where someone smokes)

		address the needs of maternal and child health populations	Smoking cessation prior to pregnancy
			Smoking cessation during pregnancy
			Percentage of women who report smoking during pregnancy
			Number of enrolled <i>Quitline</i> participants in childbearing years
Home and Community Based Services Waivers: Increase in the use of annual dental visits (ADV)	5% over previous year if less than or equal to 95%, if >95%, maintain; if 91-94%, then achieve >=95%	NPM not selected by Kansas	NPM 13B: Percent of children, ages 1 through 17, who had a preventive dental visit in the past year

2017 Core Set of Adult Health Care Quality Measures for Medicaid (Adult Core Set)

The Affordable Care Act (Section 1139B) requires the Secretary of Health and Human Services (HHS) to identify and publish a core set of health care quality measures for adult Medicaid enrollees. The law requires that measures designated for the core set be currently in use. In January 2012, HHS published an initial core set of for voluntary use by Medicaid.

2017 Core Set of Children's Health Care Quality Measures for Medicaid and CHIP (Child Core Set)

The Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) included provisions to strengthen the quality of care provided to and health outcomes of children in Medicaid and CHIP. CHIPRA required Health and Human Services (HHS) to identify and publish a core measure set of children's health care quality measures for voluntary use by State Medicaid and CHIP programs. On December 29, 2009, the Secretary posted for public comment in the Federal Register, an initial core set of 24 children's health care quality measures for voluntary use by Medicaid and CHIP programs. The core set includes a range of children's quality measures encompassing both physical and mental health. The core set was last updated in December 2016.

CMS ¹	Title V ²	
<i>Measure</i>	<i>Priority</i>	<i>Measure</i>
Timeliness of Prenatal Care (PPC-CH)*	Priority 1 Women have access to and receive coordinated, comprehensive care and services before, during and after pregnancy	NOM 1: Percent of pregnant women who receive prenatal care beginning in the first trimester
Adolescent Well-Care Visit (AWC)*	Priority 5 Communities and providers support physical, social and emotional health	NPM 10: Percent of adolescents, ages 12 through 17 with a preventive medical visit in the past year
Child and Adolescent Access to Primary Care Practitioners (CAP-CH)	Priority 5 Communities and providers support physical, social and emotional health	NPM 10: Percent of adolescents, ages 12 through 17 with a preventive medical visit in the past year
		NOM 22.2: Percent of adolescents, ages 13 through 17, who have received at least one dose of the HPV vaccine.
		NOM 22.4: Percent of adolescents, ages 13 through 17, who have received at least one dose of the Tdap vaccine.
		NOM 22.5: Percent of adolescents, ages 13 through 17, who have received at least one dose of the meningococcal conjugate vaccine.
	Priority 5 Communities and providers support physical, social and emotional health	NPM 10: Percent of adolescents, ages 12 through 17 with a preventive medical visit in the past year

	Priority 2 Services and supports promote healthy family functioning	SPM 3: Percent of children ages 6 through 11 and adolescents 12 through 17 who are physically active at least 60 minutes per day NOM 20: Percent of children and adolescents who are overweight or obese (BMI at or above the 85 th percentile)
		NOM 4.1: Percent of low birth weight deliveries (<2,500 grams) NOM 4.2: Percent of very low birth weight deliveries (<1,500 grams) NOM 4.3: Percent of moderately low birth weight deliveries (1,500-2,499 grams)
Child and Adolescent Major Depressive Disorder: Suicide Risk Assessment (SRA)	Priority 3 Developmentally appropriate care and services are provided across the lifespan	NOM 16.3: Adolescent suicide rate ages 15 through 19 per 100,000
Developmental Screening in the First Three Years of Life (DEV)	Priority 3 Developmentally appropriate care and services are provided across the lifespan	NPM 6: Developmental screening (percent of children, ages 10 through 71 months, receiving a developmental screening using a parent-completed screening tool)
Percentage of Eligible Who Received Preventive Dental Services (PDENT)*	NPM not selected by Kansas	NPM 13B: Percent of children, ages 1 through 17, who had a preventive dental visit in the past year
Cesarean Delivery	NPM not selected by Kansas	NPM 2: Percent of cesarean births
